Message from the Guest Editors

Dear Colleagues,

Wetlands are among the most productive ecosystems in the world, and provide a range of ecosystem services, including water purification, flood regulation, carbon sequestration, storm surge protection, ecotourism, biodiversity support, and cultural values. Wetland restoration requires a thorough understanding of the ecosystem dynamics, functioning works and the environmental requirements. The wise use of wetlands introduces economic and financial incentives to wetland conservation, to ensure participation of all stakeholders in wetland management, and to improve wetland inventories and tracking at scale.

We are inviting research articles and reviews dealing with all aspects of Wetland Environment, Restoration, and Wise Use, and their relationships. Papers on theoretical approaches, field and laboratory experiments as well as studies in non-manipulated ecosystems are welcome. The aim of this Special Issue is to substantially deepen our understanding of Wetland Environment, Restoration, and Wise Use in a changing world.

We look forward to receiving your contributions.

Prof. Dr. Sixi Zhu

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
