of Trás-os-Montes e Alto Douro,  
5000-801 Vila Real, Portugal

Deadline for manuscript  
submissions:

**18 November 2024**

### Message from the Guest Editors

Dear Colleagues,

The integration of renewable energies into energy systems and buildings plays a crucial role in the search for sustainable solutions and in mitigating the environmental impacts associated with the production and consumption of energy. Some examples are as follows: Environmental Sustainability; Diversification of the Energy Matrix; Reducing Dependence on Fossil Fuels; Energy Efficiency; Self-sufficiency and Resilience; Technological Innovation and Economic Development; and the Positive Impact on Public Health.

This Special Issue calls for contributions related to advances in renewable energy technologies for integration in energy systems and buildings, addressing innovative perspectives and related problems. These include, but are not limited to, works that propose novel concepts with regard to energy planning, management and operation models; works that propose new software solutions for renewable energy or the integration of related resources in energy systems and buildings; and works that focus on practical applications of advanced technological solutions that promote energy efficiency.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
