closed (31 March 2025)

Message from the Guest Editors

Globally relevant scientific and research topics, as well as experience gained during a research internship, has led us to address issues related to energy efficiency in buildings from a general and broad perspective. Therefore, we are pleased to introduce this Special Issue of *Sustainability*, entitled "Energy- and Cost-effective Building Construction and Renovation Combining New Solutions, Renewables, and Waste Heat". This Special Issue will collect scientific papers, case-studies, and review papers on the applications of renewable energy sources, the use of waste energy, and methods of improving energy efficiency in newly constructed or modernized buildings.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPus](#) / [SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
