

Sustainable Waste Management: Recycling and Resource Recovery Required for the Renewable Energy Transition

Guest Editors:

Prof. Dr. Usha Iyer-Raniga

School of Property, Construction and Project Management, RMIT University, GPO Box 2476, Melbourne, VIC 3001, Australia

Dr. Akvan Gajanayake

School of Property, Construction and Project Management, RMIT University, GPO Box 2476, Melbourne, VIC 3001, Australia

Deadline for manuscript submissions:

closed (1 June 2024)

Message from the Guest Editors

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

Developing circular economy systems and circular business models catered to a low carbon economy;

Optimal recycling and recovery solutions for obsolete equipment and vehicles (internal combustion engine vehicles, gas cooktops and heating units, etc.);

Optimal recycling and recovery solutions of renewable energy generation sources (solar PV systems, wind turbines, etc.);

Repurposing current systems and equipment to be compatible with renewable transition (conversion of internal combustion to EV);

Behavioral and attitudinal changes enabling a renewable transition;

Assessment of regulatory, policy, and governance mechanisms;

Product as service models supporting decarbonization;

Case studies/ best practices;

Forecasting of quantities and types of waste generation due to the transition to renewable energy.

an Open Access Journal by MDPI

Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
