Message from the Guest Editors

Dear Colleagues,

Over the years, migration research has primarily focused on immigrants' movement to and settlement processes in urban areas. More recently, attention has also turned to investigate the ways immigrants are emplaced and integrated in rural localities and small towns and to study social change and rural restructuring. In this context, it is important to place more emphasis on the processes, the socioeconomic preconditions, the challenges of immigrants' settlement, and the complex ways in which immigrants' movements across rural, regional, and peripheral areas are evolving. Numerous factors are considered critical when discussing the size, intensity, and duration of migration flows towards non-metropolitan areas, such as globalization, counter-urbanization, agricultural intensification/restructuring, climate change, changes in the political and/or economic conjuncture, etc.

The placement and social integration of incoming populations raise both opportunities and challenges, and therefore, various aspects and conditions need to be discussed in regard to the attractiveness and/or the resilience of non-metropolitan areas.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
