### Message from the Guest Editors

Submissions are welcome from a mix of fields—such as social studies of natural resources and the environment, science communication, and impact assessment. They are also welcome from various mixtures of cultural, communication and media studies, social psychology, sociology, cultural anthropology, political economy, and organisational studies.

Manuscripts should be drafted in order to be accessible and sensible to people outside your field and discipline. Co-authorship with partners in other disciplines and outside universities is welcome, and articles are invited that feature ‘multiple voices’.
