Message from the Guest Editors

Academic and corporate interest in sustainable supply chain management (SSCM) has risen considerably nowadays, and the concept of sustainability has been one of the main concerns in logistics. The Special Issue aims to stimulate and promote the development of novel approaches enabling sustainable logistics and supply chain management. We invite you to contribute with original research articles and reviews. The objective is to capture the latest advances regarding the integration of the green logistics and SSCM by contemporary organizations and to investigate the current status and future of sustainable logistical operations from various perspectives. Topics include:

- Supply chain design and optimization with consideration of sustainability
- Innovative green logistics solutions
- Green transportation, warehousing, and distribution
- Green logistics and reverse logistics
- Circular economy and closed loop supply chains (CLSC)
- Sustainable packaging logistics (SPL)
- Sustainability and corporate social responsibility (CSR) of logistics service providers (LSP)
- Applications of digital technologies in sustainable logistics and supply chain management
- ...

We look forward to your contributions.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
