Ecodesign and Energy Labelling, Federal Institute for Materials Research and Testing (BAM), Berlin, Germany

Deadline for manuscript submissions:
31 December 2024

Message from the Guest Editor

This Special Issue aims to instigate a discussion of the future development of product labelling in the context of the Ecodesign Regulation for sustainable products and the EU legal framework for energy labelling, especially in the context of the planned implementation of a digital product passport. The legal framework, the most promising product groups (also beyond electronics and ICT products), the type of information, the combination and aggregation of information and the design aspects of product labelling itself can be discussed. In addition to the aspects of efficiency calculation and labelling, consumer behaviour and the market surveillance of efficiency labelling are also of interest.

This Special Issue aims to provide additional input for policy makers and to trigger research in the field of product labelling. Much has been announced and implementation has already started. Further research is now needed to ensure that the process of implementing new labelling information is at the highest quality level and that it contributes positively to consumer demand for more efficient products.

Special Issue

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.
Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
