closed (30 April 2024)

Message from the Guest Editors

This Special Issue is aimed to collect papers that provide new evidence of the benefits of physical activity for sustainable development. As physical activity is confirmed to be related to almost every UNESCO Sustainability Goal, there is a broad field of research open for different perspectives, such as psychological, sociological, public health, physiological, educational, and others. Papers highlighting potential or synergies between physical activity and sustainability in any cross-sectional, longitudinal, experimental studies are welcomed, as well as reviews and papers on research methods. Although physical activity is acknowledged as an essential actor of sustainable development, gaps remain on how and what sustainable development problems physical activity could solve. We invite you to present your recent analysis on links between physical activity and sustainable development goals, such as good health and well-being, quality education, sustainable cities and communities, responsible consumption and production, and others in many aspects and in different populations.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
