Message from the Guest Editor

In a global economy defined by the ongoing interplay of national and regional markets, sustainable corporate governance has emerged as a major topic of interest for company shareholders and executives, potential investors, customers, international bodies, NGOs, public authorities, and the general public.

This Special Issue will particularly focus on the main factors that shape sustainable corporate governance at a global level. Because good corporate governance is directly linked to an ethical business environment, responsible economic activities, sound relationships with overall stakeholders, increased interest among local and foreign investors, and long-term financial performance. Therefore, this Special Issue welcomes research articles that bring novel insights into topics including (but not limited to) the importance of sustainable corporate governance for economic development, business integrity, corporate strategy and compensation, conflict management, environmental awareness, laws and regulations encouraging elements of corporate governance, financial reporting in a globalized world, transparency and accountability, trust among stakeholders, etc.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.
