Message from the Guest Editors

Dear colleagues,

Increasingly urbanised living requires complex and lengthy food systems to get food from farm to the end-consumer. Enhancing food system resilience is critical to combating unexpected risks like Covid-19 to all supply chain stakeholders. This Special Issue will focus on current food system challenges during pandemics, and will be oriented to cover the management, behaviour understanding and analysis of products like meat, dairy, cereal, fruit and vegetables in the agri-food value chains. Contributions are expected to be multidisciplinary and should provide insights into the following questions:

1. How can we re-examine major historical disruptions? (focus on epidemics or pandemics from the past in any regional area)
2. How can we build an effective methodological tool to better predict resilient strategies for people in future food systems?
3. How can we better communicate food systems risk and resilience? (This contribution will take into considerations current restrictions.)

Dr. Jorge Hernandez,
Prof. Dr. Maria del Mar Eva Alemany
Dr. Peers David
Dr. Rina Iannacone
Dr. Alejandro Fernandez
Dr. Christina Malathouni

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
