Message from the Guest Editors

We would like to invite submissions of original research papers for a Special Issue of *Sustainability* on “Recent Advances on Sustainable Agriculture and Organic Farming: Individual Decisions and Public Policies”.

The adoption of sustainable agriculture (i.e., farming practices that meet sustainability) [1] is necessary to improve food safety and to reduce negative consequences on the environment (soils, water, climate, etc). However, the effectiveness of existing measures to promote environmentally friendly practices in agriculture (including organic farming) is relatively limited. Although production and consumption of organic food products are constantly growing, the sector still remains modest compared to conventional agriculture. Indeed, total land devoted to organic farming corresponds to a very small portion of agricultural land worldwide, only about 1.5% in 2019 [2].

The Special Issue aims at providing original and frontier analyses on pro-environmental farming practices with a focus on individual decisions and public policies.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access:— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many [other databases](#).

Journal Rank: [JCR](#) - Q2 (*Environmental Sciences*) / [CiteScore](#) - Q1 (*Geography, Planning and Development*)
