Message from the Guest Editors

Dear Colleagues,

The purpose of this Special Issue is to solicit original theoretical, methodological, and empirical research papers exploring how agroecological approaches promote the sustainability of agrarian social-ecological systems, taking into account the complex relationships established between ecological functions and ecosystem services-human wellbeing- innovative socio-technical innovations and governance models as well as land use policies. Review and opinion papers that summarize the state-of-the-art, research gaps and the further directions of the topic are also welcome.

Dr. Marina García-Llorente

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
