Agroecology for the Transition towards Social-Ecological Sustainability

Message from the Guest Editors

Dear Colleagues,

The purpose of this Special Issue is to solicit original theoretical, methodological, and empirical research papers exploring how agroecological approaches promote the sustainability of agrarian social-ecological systems, taking into account the complex relationships established between ecological functions and ecosystem services-human wellbeing- innovative socio-technical innovations and governance models as well as land use policies. Review and opinion papers that summarize the state-of-the-art, research gaps and the further directions of the topic are also welcome.
