**Message from the Guest Editors**

Dear Colleagues,

The purpose of this Special Issue is to solicit original theoretical, methodological, and empirical research papers exploring how agroecological approaches promote the sustainability of agrarian social-ecological systems, taking into account the complex relationships established between ecological functions and ecosystem services-human wellbeing-innovative socio-technical innovations and governance models as well as land use policies. Review and opinion papers that summarize the state-of-the-art, research gaps and the further directions of the topic are also welcome.

Dr. Marina García-Llorente
Dr. Elisa Oteros-Rozas
Dr. Federica Ravera

Deadline for manuscript submissions:
closed (15 November 2018)
Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High visibility:** indexed by the Science Citation Index Expanded and Social Sciences Citation Index (Web of Science), as well as Scopus and other databases.

**Rapid publication:** manuscripts are peer-reviewed and a first decision provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 4.9 days (median values for papers published in this journal in the second half of 2018).
