Message from the Guest Editor

In recent years, the climate change situation has become more and more severe, and at the same time, a series of economic, social and environmental problems have emerged globally, which have affected the sustainable development of human society. Energy transition, economic growth and sustainable social development have become the focus of universal attention. It is worth noting that in the process of promoting energy transition, countries will undergo systematic changes in the form of energy industry restructuring, production organization model changes and technological breakthroughs, which will have far-reaching impacts on their economic development and social sustainability. Therefore, it is natural to explore the relationship between energy transition, economic growth and sustainable social development.

The theme of this Special Issue revolves around sustainability research, economics and social economy, all highly connected with the objectives of *Sustainability*.

Research areas:

1. Energy transition
2. Economic growth
3. Social development
4. Renewable energy
5. Energy efficiency
6. Energy policy
7. Economic policy
8. Economic impact

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
