### Message from the Guest Editors

This Special Issue focusing on the latest advances in soil management for sustainable agriculture in BRICS countries aims to promote scholarly communications among the BRICS countries, and to share the relevant research achievements with the world. This will be significant for informing soil management for worldwide sustainable agriculture.

### Scope (for BRICS countries):

- Soil organic carbon and nitrogen cycling under contrasting management strategies and global changes;
- Soil management for climate-smart agriculture;
- Soil greenhouse gas emissions and/or carbon footprint under contrasting management strategies and global changes;
- Soil fertility, environment quality, biodiversity and/or ecosystem functions under contrasting management strategies and global changes.
