Message from the Guest Editor

The purpose of this Special Series is to present syntheses, case studies, recent information, and creative thinking on the sustainable stewardship of springs around the world.

Authors are invited to contribute original research on and around the following array of topics:

- The need for enhanced stewardship of springs and springs-dependent species;
- Defining springs ecosystem sustainability;
- Hydrogeological and ecohydrological sustainability;
- Patterns of biodiversity among springs ecosystems;
- Evolution of endemism and biodiversity among springs;
- Springs as hotspots of cultural and biological diversity and interactivity;
- Progress and challenges in springs ecosystem inventory;
- Assessment of springs ecosystem integrity and its use in planning;
- Information management needed for sustainable management of springs;
- Springs conservation case studies;
- Monitoring: its role in enhancing sustainable springs management.
