Message from the Guest Editors

Many species move from one environment to another every year, settling down and occupying niches adapted to their survival and reproduction. Sometimes their settlement has a great impact on the environment, the society, and the economy in the new colonized areas. Dealing with invasive species and balancing the costs and benefits of their management is thus one of the major challenges for sustainability.

The current Special Issue focuses on:

- The direct effect on biodiversity due to the arrival of a new exotic species into a new environment;
- The effect of niche occupation by an exotic invasive species;
- The utilization of invasive species by native natural enemies;
- The effects on natural enemies due to a variation in the resource availability;
- The effects of classical biological control of a new exotic species on autochthonous species;
- The effects of conventional pest control of invasive species on native species communities.

an Open Access Journal by MDPI

Prof. Dr. Marc A. Rosen

Faculty of Engineering and
Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access:— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many [other databases](#).

Journal Rank: [JCR](#) - Q2 (*Environmental Sciences*) / [CiteScore](#) - Q1 (*Geography, Planning and Development*)
