submissions:

**closed (30 September 2021)**

### Message from the Guest Editors

Dear Colleagues,

Mountain ungulates have great value from both the scientific and the conservation standpoint. The past few decades have seen a variety of different trends in wild mountain ungulate populations in different areas, some recovering from near-extinction, some declining, some showing a stable or increasing trend, and some potentially causing conflicts with human-driven ecosystems.

In this Special Issue, we aim to provide a state-of-the-art overview of the biology, ecology, and management of mountain ungulates of the world.

For further reading, please visit the [Special Issue website](#).

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
