### Message from the Guest Editors

Dear Colleagues,

The focus of this Special Issue will be to publish a comprehensive overview and in-depth technical research papers addressing recent progress in biomass-based systems and innovative applications. Therefore, this Special Issue will cover but is not limited to the following topics:

- Approach of energy application of biomass in power systems, especially in combined heat and power systems;
- Bioenergy simulation using available or newly developed advanced systems;
- Development and application of biofuels as an alternative to fossil fuels;
- Implementation of biorefineries and new bioenergy systems;
- Achievement of nearly zero-energy buildings using bioenergy;
- Biomass for sustainable rural development;
- Research of bioenergy implementation by thermal systems.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
