Message from the Guest Editors

We encourage scientists to submit their latest research findings and review articles focused on compounds obtained from bioresource-derived wastes and by-products, highlighting structural features and bioactivities, from in vitro studies to biotechnological applications.

The main foci of the current issue will cover (i) the identification and/or isolation of natural products from plant- and animal-derived wastes and byproducts, (ii) studies on their biological properties, and (iii) research on their application in the crop-protection, biomedical, and pharmaceutical sectors, and as natural ingredients for other fine chemical products (e.g., cosmetics).

Deadline for manuscript submissions:

closed (31 March 2021)

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
