Message from the Guest Editor

Dear Colleagues,

This Special Issue focuses on the following topics and problems:

- The role of brownfields in urban and rural areas
- Endogenous and exogenous drivers in the formation of brownfields and sustainable models and development
- Policy and politics regarding the sustainable development of brownfields
- Tools and good practices in the sustainable development of brownfields
- Developing brownfields for local communities
- Social responsibility for the sustainable development of brownfields
- Directions of brownfield transformation on a local and regional scale
- Role and possibilities offered by GIS in brownfields research
- “Postindustrial” and “postmining” forests: an opportunity or a problem for sustainable urban development?
- Brownfields: a problem or an attractive economic and tourist space?

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
