Message from the Guest Editor

Setting objective and evaluating results of SBR:

- What are relevant objectives for SBR?
- When and how should the objectives for SBR be evaluated?
- Who should make and be involved in decision-making and evaluation of SBR?
- How to differentiate SBR objectives and results, for instance between output/outcome/added value, short/medium/long term or operational/tactical/strategic?
- How can results of evaluations be utilized in other SBR projects?

How can the process of CBR be enhanced?

- How can the value chain of SBR be improved?
- What new forms of tendering can improve the SBR process?
- What is the possible impact on SBR of new technologies like Virtual Digital Constructions, 3D-printing, Sensors, Drones, Industry 4.0, etc.?
- Is disruptive innovation relevant for SBR?
- What are the most promising cases for enhanced SBR processes?

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
