Climate Change Adaptation, Mitigation and Development

Message from the Guest Editors

The aim of this Special Issue is to document, reflect upon and critique the emerging notion of joint action on climate adaptation, mitigation and development. We ask: Can triple wins be found, how are they generated, who benefits, and at what cost? Further, we consider: Can joint effort on climate change adaptation, mitigation and development offer supplementary benefits that a focus on each action alone would not generate? Under what circumstances can these triple wins be generated, and are the wins sustainable? We anticipate that this special issue will include empirical evidence of joint action, modelled impacts of joint action—with a focus on sustainability, and critical reflections on the pursuit of joint action in a variety of contexts. We anticipate that a robust analysis of contemporary joint action should shift the debate on triple wins forward, and contribute to both policy and academic debates about sustainable futures under climate change.
Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High visibility:** indexed by the Science Citation Index Expanded and Social Sciences Citation Index (Web of Science), as well as Scopus and other databases.

**Rapid publication:** manuscripts are peer-reviewed and a first decision provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 4.9 days (median values for papers published in this journal in the second half of 2018).
