Deadline for manuscript  
submissions:  
**closed (31 August 2021)**

### Message from the Guest Editors

This Special Issue aims at collecting original and high-quality papers discussing case studies on the circular economy. Descriptive papers addressing circular economy business practices, business models, operations processes at the level of a single company, and industrial ecosystems are welcome. Business games illustrating the principles, theories, benefits, and barriers associated are also particularly welcome. Case studies can include all sectors, including manufacturing, distribution, and service, and can refer to single functions, single companies, supply chains, and ecosystems.

Topics of interest in this Special Issue include, but are not limited to, the following:

- Empirical cases studies on best circular economy practices (e.g., reverse logistics, industrial symbiosis, circular supply chain management, design for remanufacturing, etc.)
- Empirical unsuccessful case studies
- Illustrative case studies on the main circular economy principles
- Case studies highlighting the role of drivers and barriers for a circular economy
- Business games on circular economy
- Teaching initiatives for circular economy
- Circular economy projects

an Open Access Journal by MDPI

Applied Science, University of  
Ontario Institute of Technology,  
Oshawa, ON L1G 0C5, Canada

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
