

Restoring Coastal Resilience

Guest Editor:

Dr. Rachel K. Gittman

Department of Biology and
Coastal Studies Institute, East
Carolina University, Greenville,
North Carolina, 27858, USA

Message from the Guest Editor

Coastal ecosystems are under threat from numerous anthropogenic stressors, resulting in significant habitat losses globally. Restoration can mitigate damage to ecosystems and ensure the recovery and continued sustainment of ecosystem services.

Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
