

Restoring Coastal Resilience

Guest Editor:

Dr. Rachel K. Gittman

Department of Biology and
Coastal Studies Institute, East
Carolina University, Greenville,
North Carolina, 27858, USA

Message from the Guest Editor

Coastal ecosystems are under threat from numerous anthropogenic stressors, resulting in significant habitat losses globally. Restoration can mitigate damage to ecosystems and ensure the recovery and continued sustainment of ecosystem services.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
