Message from the Guest Editors

Dear Colleagues,

We are inviting submissions for the Special Issue “**Designing Sustainable Urban Soundscapes**”, which aims to gather research results concerning urban soundscape research, education, and design.

Although the body of literature and multi-disciplinary research on soundscape has been growing in the last two decades, there is still a strong need to bridge the gap between academia and practice by providing a holistic framework of urban soundscape education, research, and design. For this reason, we are launching this call for a Special Issue on **Designing Sustainable Urban Soundscape**. This Special Issue will include a collection of original research articles, soundscape education, design practices, technical notes, and review papers on the following list of topics:

- Community noise;
- Environmental noise;
- Soundscape design;
- Soundscape mapping;
- Education in soundscape;
- Psychoacoustics for soundscape;

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
