Message from the Guest Editors

Dear Colleagues,

The main goal of this Special Issue is to contribute to the research of digital transformation in the transport sector, from a sustainable point of view. Stakeholders in the transport sector operate in a very unstable and demanding environment due to the growing demands of customers, complex changes in regulatory frameworks, technological progress, etc.

Achieving sustainable business is one of the main reasons for digital transformation in many industries, including the transport sector. Digital transformation refers to the use of new digital technologies for the purpose of improving business sustainability, for example, by reducing costs and reducing harmful emissions or relieving employees. In addition, digital transformation offers the opportunities to develop new business models.

This Special Issue will examine the link between digital transformation and sustainability in the transport sector and will focus on the rise in new digital trends and the importance of digital transformation to support more sustainable operations in the transport sector. Authors are invited to submit theoretical or empirical papers dealing with this topic.
Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

**Open Access:**— free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Sciences*) / CiteScore - Q1 (*Geography, Planning and Development*)
