Message from the Guest Editor

Dear Colleagues,

This Special Issue invites contributions on multidisciplinary aspects of natural disasters that strike urban areas. Volcanic eruptions, earthquakes, flooding and climate-forcing extreme events are among the most common natural disasters that can strike urban areas. We are particularly looking for contributions that compare disasters occurring in urban regions to those that are associated with rural areas. In addition to descriptive contributions, this Special Issue invites works on how natural disasters impact economic, logistical or supply chain operations in urban regions. We would also like to include case studies on recent natural disasters that have hit urban regions and the responses of the local authorities (governments and NGOs). This Special Issue is also open to contributions that deal with disaster prevention or long-term geoeducational aspects to communicate and mitigate natural disaster risks for urban populations. Manuscripts of particularly-interesting perspectives, such as geoheritage, geoconservation and geoeducation relating to sustainable urban development would also be relevant to this Special Issue.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access:— free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and many other databases.

Journal Rank: JCR - Q2 (Environmental Sciences) / CiteScore - Q1 (Geography, Planning and Development)
