### Message from the Guest Editors

During recent years, there has been growing worldwide concern, due to the notable increase in pollution levels. The construction sector is directly responsible for this situation: buildings are large energy consumers, and during their construction or rehabilitation phases, they generate a huge amount of waste which, in most cases, is not managed effectively.

In that sense, and due to the creation of directives and regulations, several researchers have focused on the development of eco-efficient architecture constructions. They try to design sustainable buildings by reducing their energy consumption, their harmful emissions, or the amount of waste generated during their works...

Deadline for manuscript  
submissions:

**1 April 2022**

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:**— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many [other databases](#).

**Journal Rank:** [JCR](#) - Q2 (*Environmental Sciences*) / [CiteScore](#) - Q1 (*Geography, Planning and Development*)
