Message from the Guest Editor

Sustainable financial markets is predictability and a stable environment where financial decision-making results in sustainable operations. Investors should be well informed when making their decisions but they should also take into consideration other aspects, such as materially relevant environmental, social and governance factors, besides the purely financial one.

The purpose of the Special Issue is to consider different methodological and empirical approaches to the problem of sustainable financial markets. A central issue is how sustainability can be defined and tested and what does it mean in the context of financial markets. What does it mean to be involved in socially responsible investing? What does it mean to improve transparency and information in financial markets including banking, mutual funds, and related areas? What is the role of monetary policy, interest rates and instability in financial markets, including the possibility of bubbles and / or Ponzi schemes?

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access:— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many [other databases](#).

Journal Rank: [JCR](#) - Q2 (*Environmental Sciences*) / [CiteScore](#) - Q1 (*Geography, Planning and Development*)
