### Message from the Guest Editor

Dear Colleagues,

The aim of this Special Issue is to present original research papers in the field of sustainable agriculture, especially from an economic perspective. In this Special Issue, we seek original work that focuses on addressing the new challenges of sustainability, economically evaluating more sustainable agricultural techniques/systems and more environmentally friendly technological solutions for agriculture and livestock.

Studies that propose the economic analysis of policies linked to the promotion of agricultural sustainability and those that measure/compare sustainability from an economic perspective are also welcome.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
