Message from the Guest Editor

Conservation Education has become an increasingly important topic within the framework of sustainability. Facing the decline of species and of biomass, conservation education should take action to halt this decline.

This issue will usefully supplement the existing literature by broadening the scope in terms of audience, teaching approaches and media used.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
