Message from the Guest Editor

Dear Colleagues,

Accomplishing education for sustainability is expected to require both dedication and an understanding of the principles of sustainable development, international agreements—like the Paris Agreement and the United Nations Sustainable Development Goals—, relevant legal requirements and standards, and related topics.

The development of a strong understanding of and a commitment to sustainability in professionals is therefore likely to require innovative educational approaches that teach and embed sustainable practice and management within learners, and encourage them to implement its principles in their future professional practice. Such education can be provided by a range of teaching approaches, such as sustainability-focused study programs and courses, embedding sustainable development principles in the individual components of tertiary study programs, and practice-oriented approaches, like workplace training and development.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed by the Science Citation Index Expanded and Social Sciences Citation Index (Web of Science), as well as Scopus and other databases.

Rapid publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 4.9 days (median values for papers published in this journal in the second half of 2018).
