Private University, 1020 Vienna,  
Austria

Deadline for manuscript  
submissions:

**closed (1 July 2019)**

### Message from the Guest Editor

The purpose of this Special Issue is to collect research articles dedicated to the dynamic relationships among energy consumption, emissions, and the economic growth nexus. A special (but not exclusive) focus is put on the following topics:

- Modeling the dynamic casual relationships among energy consumption, emissions, and the economic growth nexus based on recently-developed econometric techniques;
- Examination of attainability/feasibility of achieving both economic development and environmental sustainability requirements;
- Use of alternative proxies of economic growth and additional pollutants, as well as controlling for potential exogenous factors in the examination of the abovementioned nexus.

Assoc. Prof. Dr. Nikolaos Antonakakis

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
