submissions:

31 December 2020

Message from the Guest Editor

In most developing countries, government-led political regulation of the energy efficiency and urban climate adaptation could be much more effective at least in the short term in the initial stage, but without the strong support of the private sector, it cannot be sustainable. We have already seen many policy failures at this initial stage of ecological civilization. Therefore, this Special Issue wants to seek for a workable mechanism for sustainable governance. Therefore, the Special Issue shall focus on the issues of sustainable development and its governance under the Paris regime 2020.

The subjects of this Special Issue shall be, but are not limited to, the following areas:

1. Innovative case studies for sustainable eco-friendly implications and suggestions for energy efficiency;
2. New methodological or conceptual approaches for sustainable governance as it relates to urban climate adaptation;
3. Regional cooperation for sustainable development or green growth;
4. Other related issues on sustainable development in the region.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access:—free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High visibility: indexed by the [Science Citation Index Expanded](#) and [Social Sciences Citation Index](#) (Web of Science), as well as [Scopus](#) and [other databases](#).

Rapid Publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 14.5 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2020).
