Deadline for manuscript submissions:

closed (30 June 2021)

Message from the Guest Editors

This Special Issue of *Sustainability* is open to studies covering the wide range of topics related to environmental economics and sustainable management of agricultural ecosystems including, but not limited to evaluations of investment projects, analysis of sustainable management, socio-economic valuation of ecosystem services, economic circularity, land use, and conservation. Contributions focused on the achievement of sustainable development under an economic point of view are welcome as well as works related to legal measures or analyses with a social perspective. Documents dealing with measures to mitigate environmental impacts through sustainable management practices, development of circularity processes on value chains, assessment of proposed or already implemented legal measures are especially welcome. In addition, we are interested in the methodologic development of economics to face the challenge of sustainable management in agricultural ecosystems.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
