Environmental and Sustainability Assessment Using Simulation Modelling

Guest Editors:

Dr. Fabiana Tornese

Department of Innovation Engineering, University of Salento, 73100 Lecce, Italy

Dr. Antonio Padovano

Department of Mechanical, Energy and Management Engineering, University of Calabria, 87036 Rende, Italy

Dr. Pier Paolo Miglietta

Faculty of Science and Technology, Free University of Bolzano/Bozen, 39100 Bolzano/Bozen, Italy

Deadline for manuscript submissions: closed (30 September 2020)

Message from the Guest Editors

The purpose of this Special Issue is to collect original studies focusing on the application of simulation modelling as a tool to assess environmental sustainability. We encourage the submission of papers that deal with different environmental issues in sectors (e.g., manufacturing, services, supply chain management, etc.) contributing to address the sustainability challenge through simulation. Papers can be original research articles, reviews, or meta-analyses, and can be focused on environmental and sustainability assessment through simulation modelling applied to the following areas (but not limited to these):

- Agriculture, aquaculture and livestock;
- Construction;
- Ecosystem and climate;
- Energy;
- Human health;
- Information systems;
- Land use;
- Manufacturing;
- Supply chain;
- Transportation and logistics;
- Urban and community planning;
- Waste management, recycling, and reuse;

Specialsue

- Water resources;
- Mining;
- Social behavior;
- Tourism.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international Open Access journal which provides an advanced forum for research findings in areas sustainability related to and sustainable development. Sustainability publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions. **High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
