closed (15 February 2023)

Message from the Guest Editors

The purpose of this Special Issue is to explore the rarely considered aspect of farmers' socioeconomic factors and its ultimate impact on their welfare in the era of changing climatic conditions and deteriorating environmental conditions. This Special Issue welcomes articles on the abovementioned topic, which will provide valuable contributions to the literature on climate-centered studies.

Keywords

- adaptation and adaptive capacity
- gender disaggregated effects
- crop productivity
- economic efficiency
- credit access through informal markets
- farmer cooperatives
- access to input markets
- the role of marketing intermediaries
- technology adoption

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
