Deadline for manuscript  
submissions:

**30 September 2021**

### **Message from the Guest Editor**

The concept of sustainable intensification (SI) has been adopted by policy makers as a way to protecting biodiversity and the provision of ecosystem services while meeting a growing demand for food in the world. We are interested in papers that develop novel SI indicators at local, regional, or national level; papers that provide insights into farmer attitudes towards SI, the role of the supply chain in influencing farmer decisions towards SI; papers that incorporate spatial variation regarding environmental impacts and risks associated with food production capability (for food production and opportunities for other ecosystem services) and environmental risks; papers that discuss as well as investigate the role of communication and knowledge exchange of innovations on achieving SI.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:**— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many [other databases](#).

**Journal Rank:** [JCR](#) - Q2 (*Environmental Sciences*) / [CiteScore](#) - Q1 (*Geography, Planning and Development*)
