Message from the Guest Editor

Dear Colleagues,

The general goal of achieving a sustainable economy development relies very much nowadays on the public authorities' capacity to conceive and implement effective, result-oriented policies in various domains. By offering adequate incentives or using counteracting measures related to real economy, governments can shape the future development of a country, in accordance with its general interests. As a core component of the governmental interventions, fiscal policy offers to public authorities the instruments to influence their countries development path and growth rate, being often associated in debates with countries economic performance and sustainability. At the same time, aspects as tax harmonization, tax competition or fiscal discipline exceeded the national framework of discussion, becoming constant topics on the public agenda. In addition, even global goals are reliant on sound fiscal policy, capable to reduce poverty and inequalities, to sustain good health and well-being.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
