Message from the Guest Editors

This Special Issue aims to assemble state-of-the-art original research focusing on the sustainability of food systems and the innovations necessary to obtain greener and healthier food ingredients. Owing to this area's growing interest, this Special Issue will collect the most up-to-date insights into the production and characterization of sustainable, safe, and healthy food ingredients. We welcome your contributions in the form of original research articles, reviews, or short communications, covering topics such as:

- Sustainable agriculture and food processing;
- Biotechnology for sustainable agriculture and food systems;
- Green food production technologies (extraction, conservation, preservation);
- Innovative sustainable sources of food (insects, artificial/synthetic food, microalgae and seaweed, microbial protein, among others);
- Food waste and loss reduction;
- Circular food systems and waste valorization;
- Conversion of food by-products into new ingredients

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
