Message from the Guest Editors

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

1. Development of novel nanostructures through a green synthesis route
2. Development of materials for energy storage
3. Emerging materials for efficient sustainable energy and environment devices
4. Carbon-based nanostructures for the development of sustainable devices
5. Lifecycle analyses of sustainable technologies
6. Development of Sustainable optoelectronic devices
7. Waste management for the development of emerging materials
8. Bio-medical application of emerging and sustainable materials
9. Simulation studies in the development, characterization and application of emerging materials
10. Sustainable fuel generation through the process of catalysis using emerging materials

We look forward to receiving your contributions.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
