Message from the Guest Editors

New approaches in the use of Heart rate variability (HRV) as an outcome to control physical or cognitive loads are of great interest for this Special Issue. Moreover, authors are encouraged to explore the effects of physical exercise on HRV in healthy or special populations. The use of non-linear measures is also of particular interest for this Special Issue. Original articles, systematic reviews, and meta-analyses are welcome.

Deadline for manuscript submissions:

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
