Deadline for manuscript
submissions:

31 December 2021

Message from the Guest Editors

Human-computer interaction (HCI) broadens its boundaries, takes an important role in tackling global sustainability issues, and entrenches its multi-scalar perspectives to address complex sustainability challenges.

This special issue aims to publish high-quality research work on the inter-disciplinary field of sustainable HCI (SHCI) in terms of highlighting opportunities for SHCI to contribute in achieving a more sustainable future. Beyond the traditional HCI research which emphasizes efficient, productive, and novel consumer products, we will explore the alternative design concepts such as appropriate technology, slow technology, not-to-technology, negation of design by design, designing digital limitations, and pro-environmental design. Any work on sustainable HCI that has a relation to any of these fields is welcome.

In this special issue, we seek submissions of original research in the field of interaction design and sustainability, demonstrating the diversity of approaches across HCI communities.

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and
Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access:— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many [other databases](#).

Journal Rank: [JCR](#) - Q2 (*Environmental Sciences*) / [CiteScore](#) - Q1 (*Geography, Planning and Development*)
