Deadline for manuscript  
submissions:

**31 December 2021**

### Message from the Guest Editor

This Special Issue will address current ongoing research in the oil and gas industry with a focus on sustainability. The current trend shows that fossil fuels play a major role in global warming and climate change. This Special Issue will explore how the current oil and gas processes can be run more sustainably with a low- or zero-carbon footprint. Papers from both academia and industry are welcome. We would like you to submit your research articles and highlight how your work improves the process. Research on the circular economy, reduce, reuse, recycle, and redesign are most welcome.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:**— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many [other databases](#).

**Journal Rank:** [JCR](#) - Q2 (*Environmental Sciences*) / [CiteScore](#) - Q1 (*Geography, Planning and Development*)
