Deadline for manuscript
submissions:

closed (30 April 2023)

Message from the Guest Editors

Dear Colleagues,

This special issue focuses on innovation design, knowledge management and design strategies that contribute to the sustainability of society and the achievement of wellbeing.

The call for papers is open to a wide range of papers that promote discussion on: a) the organisation design, b) organisation management, c) economic and business strategy. Also included in this theme are discussions on the implementation of social systems, including business, based on ideas that contribute to the sustainability of society, such as the SDGs, well-being, DX and diverse well fairness discussions.

Papers selected for this special issue will be published following a rigorous peer-review procedure with the aim of ensuring the rapid and widespread dissemination of research results, developments and applications.

With the rapid changes in the social environments due to pandemics, innovation and knowledge management activities required not only conventional approaches but also discontinuous ones. Therefore, submission papers can be newly positioned in discontinuous research areas with novel features, as well as being discussed in the existing knowledge management area.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
