Deadline for manuscript submissions:
closed (31 May 2022)

Message from the Guest Editor

Dear Colleagues,

The Special Issue is, therefore, a platform to present the state of knowledge on the application of numerical methods and IT tools in environmental and safety engineering from a scientific and practical point of view. In addition to scientific works, papers of a utilitarian nature are also welcome.

Original papers related to the above topics, as well as in general on methodological, numerical, and experimental research, and case studies on the application of numerical methods and IT tools to environment and safety engineering, are welcome.

I hope that the global nature of the scope of this Special Issue will attract researchers and specialists from around the world. I invite all colleagues to publish their original papers in this Special Issue.

Special Issue

Editor-in-Chief

Prof. Dr. Marc A. Rosen
Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.
Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
